# Pitt Race Karting Open for Public Rental

## Saturdays and Sundays through April

## 12pm-8pm (or dusk)

Wampum, PA- Spring has sprung and the weather has broken… this can only mean one thing at Pittsburgh International Race Complex: It's time to open Pitt Race Karting!

2016 promises to be the best season yet. The .83 mile Wilson Circuit has been repaved with new curbing and new run out areas added. Pitt Race Karting has also upgraded our fleet. New 9.5hp Honda engines have been outfitted on every rental kart along with a new brake system. The new smooth surface and new kart engines are destined to create the fastest lap times ever.

That being said, in 2016, every rental session will now be timed! We've added Club Speed, the most advanced and user-friendly karting management system in the world. Club Speed will provide new registration and session management processes. No more guessing when you'll get on track. Now you'll have an assigned session and time. You'll know with whom you are racing through user photos and names displayed on our new color display TVs. And at the end of your session, return to the registration room to receive your printed lap times to compare with your friends!

Karting will open for the public on Saturday, April 2nd, 2016 at Noon WEATHER PERMITTING. Gates will open at 11 a.m.. We'll stay open until 8pm or dusk, whichever comes first. Karting will continue to be open to the public on Saturday and Sundays only, through the month of April, noon to 8pm or dusk.

For 2016, Pitt Race Karting has standardized our pricing to $22.50 per session no matter the day or time. And new for 2016 are our new race practice hours! Renters: Gone are the days for waiting for your rental session while a few race folks tune their set ups on the weekends.

Test and Tuners: Gone are the days waiting to tune your set up during a busy rental session day on the weekends. For 2016, those wanting to test, tune, or practice on their own set ups, open practice will be limited to 8am to noon on Friday, Saturday, and Sunday for $30 limited hours. Weekday practice sessions will begin in May with another announcement. These sessions will run all day and cost $50 for the extended hours.

All hours are subject to change and weather.
