

Call for Artists

- Creativity Works are looking to extend their pool of Socially Engaged Artists

Creativity Works is an award winning charity working throughout the South West. We specialise in delivering outstanding creative projects with communities through our artistic practice in Socially Engaged Arts.

In partnership with talented Artists and key organisations, we engage with a range of specific communities from women living with postnatal depression through to adults living with mental health challenges, elders, carers or those involved in the criminal justice system.

Our aim is to inspire and empower all those we work with to **explore**, **develop** and **grow**, changing lives through creativity.

What we are looking for

We are seeking to extend our pool of talented Socially Engaged Artists, with experience of working sensitively and creatively in order to bring about positive change within the lives of others. Our upcoming projects include work in mental health, with elders, and in community development.

Our community of Artists benefit from

- * Expert support and guidance
- * Professional development and training opportunities (e.g. Safeguarding and Boundaries; Creative Facilitation; Social Media for Creatives)
- * Networking and increased employment opportunities

To express your interest please:

Send your **CV** and completed **Artist Registration Form** to artists@creativityworks.org.uk by Friday the 11th July

(Form available here: www.creativityworks.org.uk/artistregistration)
