\*4v4 soccer is meant to be played in a less structured environment in order to maximize fun and participation; thus, players eight-years-old and younger should play without formal teams and rosters. Conducting play through in-house programs with flexible and fluid teams is the best approach. **-United States Soccer Federation**

^Please note that the new mandate for goal size in U9 to U12 is 6.5x18.5. We understand that this may be difficult for our member clubs to make this purchase immediately. Therefore, we are allowing the range listed above until all clubs have the ability to purchase correct size goals in the coming years. Please be sure that whatever goal you are using on a field that the opposite goal is the same in dimensions. **-Tennessee State Soccer Association**
