

Designing the Parks Internships in partnership with the American Conservation Experience

Summer and Fall 2016

The National Park Service Olmsted Center for Landscape Preservation and Cultural Resources Diversity Internship Program, in partnership with the American Conservation Experience, are currently accepting applications for summer and fall internships focusing on the design and documentation of National Park Service cultural landscapes.

Cultural resources diversity internships provide career exploration for diverse undergraduate and graduate students ages 18-35 in historic preservation and cultural resources management. The Olmsted Center is hosting two of several positions offered throughout the National Park Service. To learn more about the Cultural Resources Diversity Program and American Conservation Experience, visit <http://www.usaconservation.org/programs/epic-internship/>

The Olmsted Center promotes the preservation of cultural landscapes through research, planning, stewardship and education. Based in Boston, Massachusetts, the Center provides cultural landscape technical assistance to parks and historic properties throughout the Northeast from Virginia to Maine.

The internship program provides participants with opportunities to broaden their understanding of landscape preservation practice through project experience, educational programs and self-study. Working alongside Olmsted Center staff, interns assist with preparing cultural landscape inventories and reports, developing preservation maintenance plans, documenting existing conditions, creating site plans and participating in field projects to improve the condition of cultural landscapes.

The preferred candidate will have a demonstrated interest in cultural landscape preservation and management, an ability to work as part of a team, and education in: landscape architecture, horticulture, history, historic preservation, landscape maintenance, graphic illustration, or mapping. Related skills may include writing, familiarity with Microsoft Word, Excel, Adobe, AutoCAD, and/or Geographic Information Systems (GIS), and a willingness to travel.

Ten-week summer (June 6 through August 12) and twenty-week summer through fall (June 6 through October 21) positions are currently available. The positions will be based at the Olmsted Center preservation planning office in downtown Boston. Public transportation is available and a stipend is provided. For more information on Olmsted Center projects, visit our website at <http://www.nps.gov/oclp/> and blog at <https://designingtheparksoclp.wordpress.com/>

To apply, please email (1) a one- to two- page letter that describes your interest in the position and your career and educational goals, (2) resume, (3) transcript (unofficial is accepted), (4) your dates of availability, and (5) contact information for two references. A combined .pdf is preferred. U.S. citizenship required. Please do not send portfolios until requested. Submit by **March 15, 2016** to margie_coffin_brown@nps.gov. For more information, contact Margie Coffin Brown by email or 617 223 5116.

Designing the Parks Internship in partnership with the Hispanic Access Foundation

Summer 2016

The Olmsted Center for Landscape Preservation, a program of the National Park Service, in partnership with the Hispanic Access Foundation, is currently accepting applications for a summer internship focusing on the design and documentation of National Park Service cultural landscapes.

The internship provides career exploration for an undergraduate or graduate Latino student in the fields of landscape architecture, historic preservation, and cultural resources management. The internship program seeks to increase awareness of career opportunities in the National Park Service, cultural resource management, and accessibility of parks within the Hispanic population. For more information, contact Rodrigo Otárola y Bentín at rodrigo@hispanicaccess.org
