

Internship Job description:

Pacheco Koch is currently seeking a landscape architecture intern to join our team in Dallas, Texas for the Spring and Summer semester. Interns can start as early as December! Our office works on a variety of projects including private and public projects. This is a great opportunity for a talented student to learn from our outstanding professionals and to help our team solve problems for our clients.

Pacheco Koch is a dynamic, growing company with an overall commitment to excellence. Our office is multi-disciplinary with civil engineers, surveyors, and landscape architects.

What you will be doing:

- Assist in schematic design including rendering and imagery boards
- Preparing hardscape and landscape plans
- Prepare detailed design and construction documents
- Conduct city code and regulations research

What we are looking from you:

- Currently pursuing a landscape architecture degree
- Strong freehand and rendering skills
- Experience with Autocad (LandF/X and civil 3D)
- Experience with Photoshop, Indesign, and SketchUp
- Ability to work in a Team environment

**Please provide a resume and portfolio to be considered for an interview to adenney@pkce.com.
