

DHM Design

Position Title: 28-week intern (spring semester / summer 2016). This position is paid.

Description of responsibilities: The position is located in our Carbondale, Colorado office. Located 35 miles from Aspen we serve a very diverse client base from local municipalities, non-profits, and private owners, across the spectrum of project types. Please see our web site for a sampling of projects and a description of the Carbondale office and our town. During your time in Carbondale you can expect to perform a wide variety of tasks, including site design, production of technical drawings and presentation materials, site visits to assist in construction administration and natural resources field reporting, and will likely work with a number of project managers during the course of your internship. Our focus is on exposing you to a diversity of experiences that will be meaningful in your development as a professional landscape architect.

Duration of internship: Jan-Aug 2016 (flexible start and end dates based on school calendar, required internship durations per KSU, and holidays).

Application deadline: until filled; we assume that the position will be filled before November 1, 2015.

Contact: Please submit a letter of interest, resume, and project samples/portfolio to dhmresumes@dhmdesign.com with "2016 Carbondale internship" in the subject line. PDF files are preferred; there is a 10MB file size limit to email attachments (no phone calls please).
