

Calling 4th & 5th Graders Who Love MATH

We are starting a Wittzle Pro Club at Craig which will meet Friday mornings before school from 7:45- 8:15a.m. in the Media Center.

What is Wittzle Pro?

Wittzle Pro is a thinking game that uses multiple math operations. Players roll the dice to get a target number, then try to find that target number on the Wittzle Pro card. A player must find the target number by using three numbers in a row. The players get points for correct answers. The players with the most points are the winners.

Cluster Wittzle Pro Tournament

There will be an opportunity for students with regular club attendance to compete with other schools in our cluster on Tuesday, March 22, 2016 at Gwin Oaks Elementary.

Craig Wittzle Pro Club begins Friday, January 22nd!
We hope to see you there.

Mrs. Broadnax & Mrs. Lamparter
