Essential skills for thriving in complex times....

This dynamic tropical learning adventure will offer a rare and precious opportunity to deepen in these vital skills in order to nourish and renew your spirit and awaken deeper dimensions of wisdom, wonder, love, compassion, and creative spirit to guide your life and work.

“When we seek for connection, we restore the world to wholeness. Our seemingly separate lives become meaningful as we discover how truly necessary we are to each other.”
Margaret Wheatley
This special gathering will bring together a rich mix of friends and colleagues from around the globe for an inspiring time of profoundly transformational learning, self-renewal, contemplative dialogue and deep reflection amidst the immense natural peace and beauty of North Kohala, a region cherished for its deep history, sacred sites, and natural beauty.

Our focus will be on being disciples of “the Holy Book of Nature” and exploring a treasury of profoundly contemplative practices, and deep relationships that are most essential for our success as inspired and inspiring leaders in these times of growing complexity, intensity, uncertainty and opportunity, while learning to better care for our selves in the process.

“If a living system is suffering from ill health, the remedy is to connect it with more of itself.”
Francisco Varela
