

Tellington TTouch Advanced Practitioner Training
April 15-17, 2016 Bloomington, MN
Instructor: Debby Potts

An advanced training is an important part of your professional and skills development and a wonderful opportunity to learn and network with other TTouch Practitioners.

This training will count as an update for Practitioners who need to attend an Advanced Training or assist at a training at least once every two years in order to maintain their certification. Practitioners and people who have attended at least 2 trainings of all species are welcome to attend. For students in a TTouch program this session does not count towards certification, although those needing to take a break of more than one year (but not more than two) from their Certification Program can use this training to remain in good standing in the program.

- Would you like to learn what's new? Get updates with the latest techniques and explore new equipment choices.
- Are you limited by your success? It's common to find that you use the same techniques for most animals. Working with other Practitioners offers a great opportunity for networking and sharing ideas.
- Would you like more insights into working with clients, or teaching workshops? Learn practical tips and techniques to sharpen your teaching skills and expand your effectiveness with clients.
- Do you have any other requests? Bring your questions and challenges. Everyone will benefit from your experiences.

Debby is looking forward to seeing you at this fun, information-packed training!
