## 15.1.0.1

**Added:** Updater – updated to latest version.

**Added:** Report Name: Inspection History for Inmate– (#488). This is a list of all inspections for an inmate for the date range. The report is found on the Inmate tab.

**Added:** Report Name: Listing of Message Center Messages – (#483). This report will print all Messages sent within the date range. There is a special permission to allow an individual to print this report. The report is found on the Report/Miscellaneous tab.

**Revised:** US Marshal Federal Billing Report – changed the second page of the report to be a supporting document for the SF1034. More data is provided.

**Revised:** Officer Shift Log Report – (#69) - Added the Area to the report.

**Revised:** Officer Shift Log Report in Event Sequence – (#152) - Added the Area to the report.

**Added:** Report Name: Inmate Roster by Cell by Name – (#467). This is a listing of all inmates in alphabetical name sequence by cell. The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Seized Property - Released Inmates – (#468). This is a list of all property seized from inmates who have been released. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Sealed Confinements – (#469). This is a listing of all confinements that have been sealed. The report is found on the Report/State tab.

**Added:** Report Name: Sealed Charges – (#470). This is a listing of all charges that have been sealed. The report is found on the Report/State tab.

**Added:** Report Name: Records to be expunged – (#471). This is a listing of all confinements and charges whose expungement dates are within the selected date range. The report is found on the Report/State tab.

**Added:** Report Name: Booked During Period - Media Report - Type 6 - (#472). This is a media report showing all bookings for a given data range. Warning, this report will show Juveniles if the user has the CanViewJuveniles permission. But, it excludes inmates whose Held for Locality is not equal to the Jail Agency Code in the application settings. It is found on the Report/Miscellaneous tab.

**Added:** Report Name: Booked During Period - Media Report - Type 6 with Photo - (#473). This is a media report showing all bookings for a given data range along with a photo. Warning, this report will show Juveniles if the user has the CanViewJuveniles permission. But, it excludes inmates whose Held for Locality is not equal to the Jail Agency Code in the application settings. It is found on the Report/Miscellaneous tab.

**Added:** Report Name: Current Count – (#474). This is a list of current inmate counts (Race/Sex/Ethnicity/Juveniles/Pre-Booking/Temp Locations). The report is found on the Report/Population tab.

**Added:** Report Name: Caution Indicators – (#475). This is a list of all Caution Indicators entered for currently confined inmates. The report is found on the Report/Population tab.

**Added:** Report Name: Watch List – (#476). This is a list of all active watches excluding Medical watches. The report is found on the Report/Population tab.

**Added:** Report Name: Bar Code Labels For Cells – (#477). This report will print barcoded labels for selected cells. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Bar Coded Cell Checks - Cell Sequence – (#478). This is a list of all bar-coded cell checks performed within the selected date and time range in cell then bed sequence. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Bar Coded Cell Checks - Officer Sequence – (#479). This is a list of all bar-coded cell checks performed within the selected date and time range by officer. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Bar Coded Cell Checks by Officer– (#480). This is a list of all bar-coded cell checks by officer performed within the selected date and time range. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Scheduled Events Report - With Cautions – (#481). This is a list of all scheduled events within the time range showing the caution indicators for each inmate. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Inmate Statistics Report -Type 2 – (#482). This report calculates and displays the statistics for Inmates in jail at any time during a date range. The report is found on the Report/ Population tab.

---

## 14.4.0.18

**Added:** Application Setting – DisapproveVisitorsUponRelease – With this setting set to True an inmates' visitors will be disapproved upon release.

**Revised:** Mail Log – Added three new permissions.

Mail Log - Can save mail log

Mail Log – Can delete mail log

Mail Log – Can print mail log

**Revised:** Dashboard – Added Scanned Documents Count.

**Added:** Permission – Booking - Edit Original Booking ID– This permission limits who can change the Original booking ID on the booking tab of the booking form.

**Added:** Permission – Message Center - Admin View Rights – This permission is for Report #483 Listing of Message Center Messages Only users with this permission will be able to view this report.

**Revised:** Keep Separate– Added the housing location to the search grid.

**Revised:** Watch – Inmates that have active watches upon release from jail will now have the watches set to inactive. The watch will have a note appended stating that the watch was ended by the system. Also, watches can only be logged on inmates that have active watches set. Only inmates with active watches names will be loaded in the drop down box for logging a watch.

**Added:** Incident Listing – Internal Incident Reporting – A tab was added "Incident Listing", where a user can pull back a listing of all incidents for that date range.

**Revised:** Inspection – Added a multiple button at the bottom of the inmate grid so that multiple inmates can be added to the inspection record easily.

**Revised:** Incident Report– The disposition can now be printed on the incident report.

**Added:** Dashboard – Two application settings for the dashboard. Dashboard – to make the dashboard available by adding a menu item and DashboardAutoStart – to automatically start the dashboard when the users logs in. Also view and print permissions. Dashboard shows counts for confined inmates. The dashboard shows totals for:

Confined Reason Count

Temporary Locations

Status of Inmates

Cautions

Watches

Gangs

Age Ranges

**Added:** Bed Check – A new feature where a user can record their cell checks. 2d barcode labels can be printed for all cells. With a Bluetooth scanner the cell check can be recorded along with which inmates are present or not present. You must turn on the UseCellCheck application setting to use.

**Added:** Temporary Inmate Movement – Added the capability of where a Bluetooth scanner can also be used to scan armbands for inmate movement.

**Added:** Application Setting – UseVisitorDriverLicenseScanner – Located under the Scanners group. Set to "True" to use the scanner in visitation.

**Added:** Application Setting – UsePreBookDriverLicenseScanner – Located under the Scanners group. Set to "True" to use the scanner in the Pre-Booking form.

**Added:** Application Setting – UseCellCheck – Located under the Tools group. Set to "True" to use the new Bed Check barcode scanning system.

**Added:** Visitation – Driver License Scanning capability – Using a Bluetooth scanner, the 2d barcode can be read to populate the visitors input section. Most of the data will be filled in from the DL.

**Added:** Undelete capability for Visitors.

**Added:** Active Bond PreRelease Check – A new application setting that can be turned on to check for any "Active Bond" statuses. It is found under the Release Checks group.

**Added:** Sealed Charges and Confinements show up in red on the charges and confinements lists. This can only be viewed if the user has permissions to view a sealed record.

**Added:** Local Booking ID – Added to the booking tab of the booking form. This number can be entered or auto generated. There is an application setting for it to be auto generated. There is a permission that can be set on this field and a required field validation for agencies that want it to be entered. All reports that print Booking ID will print this field instead if it is being used.

**Added:** Us Marshal ID – Added to the person tab on the booking form

**Added:** Driver License Class – Added to the person tab on the booking form

**Added:** Charge Date Sealed – Added to the charges tab on the booking form. Charges that have a sealed date (regardless of the date) will not be loaded if a user does not have permission to see sealed records. (Records – View Sealed Records). A user must have permission to seal a record to save a sealed date. (Records – Seal or Unseal Records)

**Added:** Charge Date To Be Expunged – Added to the charges tab on the booking form. Charges that have an expunged date (regardless of the date) will not be loaded if a user does not have permission to see sealed records. (Records – View Sealed Records). A user must have permission to seal a record to save an expunged date. (Records – Seal or Unseal Records)

**Added:** Confinement Date Sealed – Added to the change confinement form accessed from the release tab

**Added:** Confinement Date To Be Expunged – Added to the change confinement form accessed from the release tab

**+REPORTS:**

**Added:** Report Name: Listing of Message Center Messages – (#483). This report will print all Messages sent within the date range. There is a special permission to allow an individual to print this report. The report is found on the Report/Miscellaneous tab.

**Revised:** US Marshal Federal Billing Report – changed the second page of the report to be a supporting document for the SF1034. More data is provided.

**Revised:** Officer Shift Log Report – (#69) - Added the Area to the report.

**Revised:** Officer Shift Log Report in Event Sequence – (#152) - Added the Area to the report.

**Added:** Report Name: Inmate Roster by Cell by Name – (#467). This is a listing of all inmates in alphabetical name sequence by cell. The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Seized Property - Released Inmates – (#468). This is a list of all property seized from inmates who have been released. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Sealed Confinements – (#469). This is a listing of all confinements that have been sealed. The report is found on the Report/State tab.

**Added:** Report Name: Sealed Charges – (#470). This is a listing of all charges that have been sealed. The report is found on the Report/State tab.

**Added:** Report Name: Records to be expunged – (#471). This is a listing of all confinements and charges whose expungement dates are within the selected date range. The report is found on the Report/State tab.

**Added:** Report Name: Booked During Period - Media Report - Type 6 - (#472). This is a media report showing all bookings for a given data range. Warning, this report will show Juveniles if the user has the CanViewJuveniles permission. But, it excludes inmates whose Held for Locality is not equal to the Jail Agency Code in the application settings. It is found on the Report/Miscellaneous tab.

**Added:** Report Name: Booked During Period - Media Report - Type 6 with Photo - (#473). This is a media report showing all bookings for a given data range along with a photo. Warning, this report will show Juveniles if the user has the CanViewJuveniles permission. But, it excludes inmates whose Held for Locality is not equal to the Jail Agency Code in the application settings. It is found on the Report/Miscellaneous tab.

**Added:** Report Name: Current Count – (#474). This is a list of current inmate counts (Race/Sex/Ethnicity/Juveniles/Pre-Booking/Temp Locations). The report is found on the Report/Population tab.

**Added:** Report Name: Caution Indicators – (#475). This is a list of all Caution Indicators entered for currently confined inmates. The report is found on the Report/Population tab.

**Added:** Report Name: Watch List – (#476). This is a list of all active watches excluding Medical watches. The report is found on the Report/Population tab.

**Added:** Report Name: Bar Code Labels For Cells – (#477). This report will print barcoded labels for selected cells. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Bar Coded Cell Checks - Cell Sequence – (#478). This is a list of all bar-coded cell checks performed within the selected date and time range in cell then bed sequence. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Bar Coded Cell Checks - Officer Sequence – (#479). This is a list of all bar-coded cell checks performed within the selected date and time range by officer. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Bar Coded Cell Checks by Officer– (#480). This is a list of all bar-coded cell checks by officer performed within the selected date and time range. The report is found on the Report/ Miscellaneous tab.

**Added:** Report Name: Scheduled Events Report - With Cautions – (#481). This is a list of all scheduled events within the time range showing the caution indicators for each inmate. The report is found on the Report/ Miscellaneous tab.

A**dded:** Report Name: Inmate Statistics Report -Type 2 – (#482). This report calculates and displays the statistics for Inmates in jail at any time during a date range. The report is found on the Report/ Population tab.

**Fixed:** Report Name: Agency Billing Report - Type 2 (#333) – This report was not handling the Excluded days properly and has now been corrected. The report is found on the Report/Financial tab.

---

**14.3.0.13**

**Added:** WIA capability added to obtain images (mugshots). Now there is the capability for WIA, TWAIN or TWAIN Alternate. There is a selection of the capability on the Image Details form. The TWAIN alternate allows the users to fall back to the old capability if the new procedures won't work for them.

**Added:** Application Settings – Default Settings – ImageScanningDeviceMode is a new setting for the imaging device for taking mugshots.

**Revised:** Temporary Inmate Movement – Added barcode scanning for inmate movement. An inmate can be moved to a location, moved from one location to another, or removed from a location by scanning the barcode on the inmate armband.

**Revised:** Data Import – Added capability to import mugshots from RMS into JMS.

**Added:** Visitor Log – Visitor Status by Inmate Tab – added a checkbox to allow users to view all visitors regardless of status instead of just approved visitors.

**Fixed:** Court tab wasn't updating or creating a new record properly. It would work fine on a second attempt, but normally would fail on the first attempt.

**Fixed:** When saving the position of columns on the charges tab an error was being thrown. This has been fixed.

**+REPORTS:**

**Added:** Report Name: Inmate Roster by Cell by Name – (#467). This is a listing of all inmates in alphabetical name sequence by cell. The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Data Form - Type 2 – (#461). For VA only – a form for an inmate to allow for handling manual LIDS submission. The report is found on the Report/Inmate tab as well as the "Print Forms" drop down list.

**Added:** Report Name: Visitor Schedule by Pod – (#462). This is a listing of scheduled visitors for the selected date range by POD and visitation time. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Certified Credit For Time Spent In Jail – (#463). For VA only - This is a jail credit report for the inmate. The report is found on the Report/Inmate tab.

**Added:** Report Name: Daily Count of Inmates Housed in Other Facilities – (#464). This is a daily count of inmates as of a default time that are being housed in other facilities. The report is found on the Report/Population tab.

**Added:** Report Name: DNA Samples Taken – (#465). This is a listing of all inmates admitted during the date range who had DNA activity.

The CDR Code is taken from the UCR field on the Charge look-up table. This code can be entered/changed in the Look-up Code Configuration in the Administration tab (Charge Codes). - The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Property Images – (#466). This is A list of all of an inmate's Property Images for the selected Booking - The report is found on the Report/Inmate tab.

**Fixed:** Report Name: Meal Billing (#124) – This report was printing (on the detail line) the Billed From date in the Billed To column and vice versa. It has been corrected. The report is found on the Report/Financial tab.

**Altered:** Visitor Status By Inmate Report (#122) – the report was only returning those inmates that had a status of approved. Now all visitors are being returned regardless of their status. Status of visitor is listed on report.

---

### 14.2.0.6

**Added:** AdjustProjectedReleaseDateForFines – new application setting that sets whether to automatically calculate the projected release date based on fines amounts, court costs and payment per period.

**Revised:** Fines – fines was totally rewritten. Fine Amount and Court Costs was added to the Sentences Tab and is the only place where those two fields can be changed. They can't be changed on the Fines form. A fine/court cost record must be created in fines, to include the period (number of days to serve off the fines), and amount per period (dollar amount of credit to be given per each day of time served). Payments can be made which

will shorten the days to serve the fines/court costs. Periods (days to serve) are added to the end of the sentence time to serve. In other words if an inmate has to serve 30 days on their sentence, but then has 5 additional days to serve because of fines/court costs, they will have 35 days to serve. If the payment of $100.00 per period (day) is allowed and a payment of $200.00 is made, then the 5 days will change to 3 days and now the inmate must serve a total of 33 days.

**Added:** Days Held to the Confinements listing on the Release Tab.

**Fixed:** Victim Notification - form allowed multiple instances of the form to open if not closed each time. Now form will either open new or the current open form will pop up.

**Revised:** Undo Release – changed to use a stored procedure, procUndoRelease.

**Added:** The following fields were added:

Birth County – Person Tab (This is a drop-down box, but is free-text entry capable if county is outside of state.)

Birth City – Person Tab

Birth State – Person Tab

*Place of Birth on the Person Tab was removed and replaced with the above cited fields.

Home County – Person Tab (This is a drop-down box, but is free-text entry capable if county is outside of state.)

Arrest County – Arrest Tab (This is a drop-down box, but is free-text entry capable if county is outside of state.)

**Revised:** Internal Incident Report - Supplements and images can now be printed with the incident report when an incident is searched by name, without loading the incident in edit mode. Statements can now be printed with the incident report in addition to supplements and images.

**Fixed:** Message Center – The delete button was disabled when the inbox was selected even if there were selected messages to delete.

**Revised:** Sentence tab on the Booking form – Added a check box "Serve Time as Weekender"

**Revised:** Keep Separates tab on the Booking form – Added a search for names to add as keep separates. Currently Confined, Currently Released, and Never Confined names can now be added as a keep separate. Keep separate records can now be updated and printed.

The grid now shows the status of the 'keep separate' individuals. Any name that does not appear in the drop-down list must be added to the Jail Master Name file.

**Added:** Note Templates – Template names can be added in lookup code configuration on the Administration menu. There is a menu item under administration called "Note Template Setup". Questions/Statements can be added to the template names and the templates can be linked to features in the program. After templates are set up and linked to features, Double click the notes field on the feature to be able to use the template for the notes. There is an application setting called "ImportQuestionsAndResponses" This setting determines whether the "Import Questions/Statement and Response" check box on the template form is checked by default. This can be changed at the time the template is completed. Note templates can be setup for the following features.

- Charge
- Arrest
- Bond
- Court
- Sentence
- Disposition
- Release
- Keep Separate
- Hold
- Hold - Cleared
- DNA
- Property – Seized
- Property – Issued
- Incident – Narrative
- Incident – Disposition
- Incident – Statement
- Incident – Supplement
- Incident – Approval
- Mail Log
- Shift Log
- Person Log
- Refusal Log
- Inspection
- Phone Log
- Programs
- Scheduled Events
- Watch – Set Watch
- Watch – Log watch
- Vehicle Location
- Laundry Exchange
- Victim

- Victim – Notification
- Visitor – Status
- Visitor – Inmate Rights
- Booking Notes
- Booking Notes – Description
- Adjust Jail Credit
- Disciplinary
- Disciplinary – Hearing
- Disciplinary – Evidence
- Grievance – Complaint
- Grievance – Action Requested
- Grievance – Informal Resolution
- Grievance – Formal Department Findings
- Grievance – Formal Action Response
- Grievance – Committee Response
- Grievance – Committee Members
- Grievance – Administrator Findings
- Grievance – Administrator Actions
- Transport
- Meals - Refused Meals
- Meals - Special Diets
- Medical - Infectious Diseases
- Medical – Physical
- Medical - Treatment Cost
- Medical – Vitals
- Medical - Drug Allergies
- Medical - Food Allergies
- Medical - Physician Notes
- Medical - Nurses Notes
- Medical - Issue Medications
- Medical - Personal Medications
- Medical - Sick Call Complaint

**Revised**: Temporary Inmate Movement (Formerly called Person Movement) – Changed the list views to grids. Both grids can be searched and printed.

**Revised:** Bond tab on the Booking Form – Added Bond Fine Amount Field.

**Added:** Sentence Days/Months/Years – Users were entering negative numbers in one of these columns which was causing an error. Negative numbers should not be added. If an inmate's sentence is to be decreased for any reason, then the adjust jail credit should be used with an explanation. A check was added to prevent anyone from adding negative numbers.

**Added:** Audit Trail:

Internal Incident – When an incident is viewed it is logged in the audit trail.

**Fixed:** Pin generation was allowing duplicates. Revised the two stored procedures to check on the save of a Pin and regenerate a new one if the one being saved is a duplicate. Also added that if all available Pin Numbers have been used where they are being kept, a notification is placed in the Pin Number field of "All Pins Used". This means that the Pin Number, upper and lower bounds needs to be increased in size.

**Added:** Projected Release Date – A check is now made to ensure that a projected release date is not less than the current date.

**Added:** Key Control - On return tab, a new permission for active keys. This Field will be hidden on grid unless user has the Keys - Set Keys Active permission.

**+REPORTS:**

**Added:** Currently Confined/All Inmates – Now on the Inmate Reports Tab and Medical Reports Tab on the Reports form you can select whether you want the currently confined or all inmates to load in the drop-down boxes. The default setting is Currently Confined. Reports can now be run on any inmate that has ever been in the jail.

**Added:** Report Name: Inmate ID Card - Type 2 – This ID Card is like the original, but it only prints on 1 side. The DOB has been moved to the front side and all other fields dropped. The report is found on the Report/Inmate tab.

**Added:** Report Name: Charges Requiring DNA Sample – This is a listing of all inmates admitted during the date range that have a charge requiring a DNA sample to be taken. The report is found on the Report/Population tab. To mark a charge as requiring a DNA sample you must go to Administration/Update Lookup Codes/Lookup Code Configuration and then select Charge Codes. Once there, enlarge the window to full size and fill in the Report Category (with either "DNA", "Gang/DNA", or "DNA/DUI") for all of the charges that require a DNA sample. This report only lists DNA samples on the Booking that is being selected. It does not look at older samples. The report is found on the Report/Population tab.

**Added:** Report Name: Inmates with Fast Track Charges - # 439. This is a listing of all the inmates admitted during the date range and that have a charge that is set as FastTrack. To mark a charge as FastTrack you must go to Administration/Update Lookup Code/ Lookup Code Configuration and then select Charge Codes. Once there, Enlarge the window to full size and fill in the Report Category (with either: FastTrack, DNA/FastTrack, DUI/FastTrack, Gang/FastTrack, FastTrack/DUI/Gang, FastTrack/DNA/Gang, FastTrack/DNA/DUI, or FastTrack/DNA/Dui/Gang) for all the charges that are deemed FastTrack. The report will show only FastTrack charges; inmates may have other non-FastTrack charges. The report is found on the Report/Population tab.

**Added:** Report Name: Gang Members Having Selected Charges – A listing of all inmates that were admitted during the date range, classified as a Gang member, and having any of the selected charges. The report is found on the Report/Population tab. To mark a charge as one to be selected for this report you must go to Administration/Update Lookup Codes/Lookup Code Configuration and then select Charge Codes. Once there, enlarge the window to full size and fill in the Report Category (with either "Gang" or "Gang/DNA") for all of the charges that you wish to report on for this report. The report is found on the Report/Population tab.

**Added:** Report Name: Immigration and Customs Enforcement Inmate Listing (Date Range) – A listing of all inmates admitted during the date range with data for Immigration and Customs Enforcement. The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Activity Report - Type 2 – Lists all activity showing cell assignments and temporary movements for an inmate (includes moved to and moved from reasons). The report is found on the Report/Inmate tab.

**Added:** Report Name: DNA Samples Taken (Confined or Released)– A listing of all DNA Samples taken within the date range for all inmates (currently confined or released). The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Watch Log – This report shows all watches and logs for the selected Inmate and Booking ID. The report is found on the Report/Inmate tab.

**Added:** Report Name: Gang All Members List – (#440).This is a listing of all inmates currently in jail and released who have been added to the Gangs tab on the Booking Form. Go to Booking Form/Gangs/Gang Affiliation to select the gang that the inmate belongs too. To add Gangs to drop down go to Booking Form/Gangs/Maintenance. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: User Defined Questionnaire Count – (#441).This is a total of all the user defined questionnaires by type with in a data range. (Note: Deleted questionnaires will be excluded). The report is found on the Report/Population tab.

**Added:** Report Name: Jail Inmate Charge Roster – Type 13 (Days Held for each Arrest) – (#442). This is a list of current inmates and their charges - Type 13 (Held For Locality showing Days Held for each Arrest). The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: User Defined Questionnaire Count by Inmate – (#443). This report gives the totals of all the User Defined Questionnaires by type, giving totals for each type of questionnaire and totals for each inmate. (Note: Deleted questionnaires will be excluded). The report is found on the Report/Population tab.

**Added:** Report Name: Seized Property Inventory Report – (#444). This report gives the Seized Property items grouped by Stored Location so that an inventory can be made of each location. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Seized Property By Name – (#445). This is a list of all property seized from inmates in inmate name sequence and breaks page on inmate name. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Seized Property By Name – Type 2 – (#446). This is a list of all property seized from inmates in inmate name sequence and does NOT break page on inmate name. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Charges By Date Report - Type 2 – (#447). This report shows all charges for inmates confined during the selected date range - In Time Served then Name sequence. The report is found on the Report/State tab.

**Added:** Report Name: Inmate User Defined Questionnaire Count – (#448). This report gives the totals of all the User Defined Questionnaires by Inmate by type, giving totals for each type of questionnaire for each inmate. (Note: Deleted questionnaires will be excluded). The report is found on the Report/Population tab

**Added:** Report Name: Victim Notification Report – (#449). This report gives a detailed list of all the victims for an inmate. It lists the contact information and the attempts to contact the victim from the Victim Notification Tool- Notifications Tab. The report is found on the Report/Inmate tab.

**Added:** Report Name: Victim Notification Pending Completion Report – (#450). This report gives a list of all the victims for an inmate who do not have a completed Victim Disposition in the Victim Notification Tool- Notifications Tool. The report is found on the Report/Inmate tab.

**Added:** Report Name: Active Weekender Confinements – (#451). This report produces a list of all Inmates who have a sentence marked as serving time as a weekender and the Sentenced Time Completed has not been set on the release. It shows all confinements for each returning/weekender inmate. The report is found on the Report/Population tab.

**Added:** Report Name: Transport Mileage by Officer Including Inmates (# 452) – Report Similar to report # 428 Transport Mileage by Officer, except each transport number includes the inmates transported. Please note the multiple officers on a transport will be counted multiple times and cause inmates to be counted in the inmate count multiple times. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Admitted During Period (#453) - A listing of all inmates that were admitted during the selected period. Shows name, address, Held for locality, arresting agency and charge information. It breaks page on Held For Locality and prints

in Admit date/Name sequence with in the Held For Locality. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Daily Average for Month Report – (#454). This report gives the daily average total for male and female inmates for the month, by month. Please note that this report only shows only full months, the first day on the month will be the first day of the month chosen and the last day will be changed to the last day of the last full month. Partial months will not be counted. The report is found on the Report/Population tab.

**Added:** Report Name: Currently Confined Roster By Pod – (#455). This is a listing of all currently confined inmates with their photos showing all charges. It breaks page on Pod. The report is found on the Report/Population tab.

**Added:** Report Name: Deaths in Custody Annual Summary- (#456). This is report CJ-9A/10A for the Bureau of Justice Statistics. Inmate deaths are handled with a release code of 2000. Released weekenders should have the sentence completed box checked on the release tab when their sentence is completed to count correctly on the report. This report is pulling data from many locations if you have any questions please email support. The report is located on the Report/Population tab.

**Added:** Report Name: Bond Agency - Bonds Outstanding By Bonding Agency By Court Jurisdiction – (#457). A list of outstanding bonds for each Bond Agency showing totals by court jurisdiction and by bond status. The report is found on the Report/Financial tab.

**Added:** Report Name: Potential Mental Illness/ Retardation.(#458)(Note: Texas only) This report shows all the inmates who answer yes to questions 1,2,3,4,10 or 39 on the Texas Prebooking Mental Health Questionnaire. The report is found on the Report/Population tab.

**Added:** Report Name: Currently Confined Inmate Notes – (#459). A list of ALL notes for currently confined inmates, by pod. The report is found on the Report/Population tab.

**Added:** Report Name: Admitted Inmates – (#460). A listing of all inmates admitted during the selected date range that are still in jail. The report is found on the Report/Population tab.

**Changed:** Report Name: Inmate Cash Account History Report – Added a "No Data Selected" message to the report when there was no cash records for the Inmate within the date range selected. The report is found on the Report/Inmate tab.

**Changed:** Report Name: Selected Inmate List by Held for Locality (#220) – Added a "Grand Total Inmates" count to the report and fixed the "Held for Locality:" label so it did not wrap to a second line. The report is found on the Report/Miscellaneous tab.

**Fixed:** Report Name: Additional Court Information (#134) – This report will now show all charges for an Inmate/Booking, not just those with additional court information. The report is found on the Report/Inmate tab.

**Fixed:** Report Name: Texas Average Daily Population report (#168) – This report was printing the "Print Date" incorrectly. The data was being reported properly. The date will now show the date and time it was run. The report is found on the Report/Population tab.

**Fixed:** Report Name: Federal Housing Report - US Coast Guard (#118) – This report was not working properly. It has now been fixed. The report is found on the Report/Financial tab.

---

### 14.1.*

**Fixed:** Victim Notification form allowed multiple instances of the form to open if not closed each time. Now form will either open new or the current open form will pop up.

**Revised:** Undo Release – changed to use a stored procedure, procUndoRelease.

**Added:** The following fields were added:

Birth County – Person Tab (This is a drop-down box, but is free-text entry capable if county is outside of state.)

Birth City – Person Tab

Birth State – Person Tab

*Place of Birth on the Person Tab was removed and replaced with the above cited fields.

Home County – Person Tab (This is a drop-down box, but is free-text entry capable if county is outside of state.)

Arrest County – Arrest Tab (This is a drop-down box, but is free-text entry capable if county is outside of state.)

**Revised:** Internal Incident Report - Supplements and images can now be printed with the incident report when an incident is searched by name, without loading the incident in edit mode. Statements can now be printed with the incident report in addition to supplements and images.

**Fixed:** Message Center – The delete button was disabled when the inbox was selected even if there were selected messages to delete.

**Revised:** Sentence tab on the Booking form – Added a check box "Serve Time as Weekender"

**Revised:** Keep Separates tab on the Booking form – Added a search for names to add as keep separates. Currently Confined, Currently Released, and Never Confined names can now be added as a keep separate. Keep separate records can now be updated and printed. The grid now shows the status of the 'keep separate' individuals. Any name that does not appear in the drop-down list must be added to the Jail Master Name file.

**Added:** Note Templates – Template names can be added in lookup code configuration on the Administration menu. There is a menu item under administration called "Note Template Setup". Questions/Statements can be added to the template names and the templates can be linked to features in the program. After templates are set up and linked to features, Double click the notes field on the feature to be able to use the template for the notes. There is an application setting called "ImportQuestionsAndResponses" This setting determines whether the "Import Questions/Statement and Response" check box on the template form is checked by default. This can be changed at the time the template is completed. Note templates can be setup for the following features.

- Charge
- Arrest
- Bond
- Court
- Sentence

**Revised**: Temporary Inmate Movement (Formerly called Person Movement) – Changed the list views to grids. Both grids can be searched and printed.

**Revised:** Bond tab on the Booking Form – Added Bond Fine Amount Field.

**Added:** Sentence Days/Months/Years – Users were entering negative numbers in one of these columns which was causing an error. Negative numbers should not be added. If an inmate's sentence is to be decreased for any reason, then the adjust jail credit should be used with an explanation. A check was added to prevent anyone from adding negative numbers.

**Added:** Audit Trail:

Internal Incident – When an incident is viewed it is logged in the audit trail.

**Fixed:** Pin generation was allowing duplicates. Revised the two stored procedures to check on the save of a Pin and regenerate a new one if the one being saved is a duplicate. Also added that if all available Pin Numbers have been used where they are being kept, a notification is placed in the Pin Number field of "All Pins Used". This means that the Pin Number, upper and lower bounds needs to be increased in size.

**Added:** Projected Release Date – A check is now made to ensure that a projected release date is not less than the current date.

**Added:** Key Control - On return tab, a new permission for active keys. This Field will be hidden on grid unless user has the Keys - Set Keys Active permission.

**+REPORTS:**

**Added:** Currently Confined/All Inmates – Now on the Inmate Reports Tab and Medical Reports Tab on the Reports form you can select whether you want the currently confined or all inmates to load in the drop-down boxes. The default setting is Currently Confined. Reports can now be run on any inmate that has ever been in the jail.

**Added:** Report Name: Inmate ID Card - Type 2 – This ID Card is like the original, but it only prints on 1 side. The DOB has been moved to the front side and all other fields dropped. The report is found on the Report/Inmate tab.

**Added:** Report Name: Charges Requiring DNA Sample – This is a listing of all inmates admitted during the date range that have a charge requiring a DNA sample to be taken. The report is found on the Report/Population tab. To mark a charge as requiring a DNA sample you must go to Administration/Update Lookup Codes/Lookup Code Configuration and then select Charge Codes. Once there, enlarge the window to full size and fill in the Report Category (with either "DNA", "Gang/DNA", or "DNA/DUI") for all of the charges that require a DNA sample. This report only lists DNA samples on the Booking that is being selected. It does not look at older samples. The report is found on the Report/Population tab.

**Added:** Report Name: Inmates with Fast Track Charges - # 439. This is a listing of all the inmates admitted during the date range and that have a charge that is set as FastTrack. To mark a charge as FastTrack you must go to Administration/Update Lookup Code/ Lookup Code Configuration and then select Charge Codes. Once there, Enlarge the window to full size and fill in the Report Category (with either: FastTrack, DNA/FastTrack, DUI/FastTrack, Gang/FastTrack, FastTrack/DUI/Gang, FastTrack/DNA/Gang, FastTrack/DNA/DUI, or FastTrack/DNA/Dui/Gang) for all the charges that are deemed FastTrack. The report will show only FastTrack charges; inmates may have other non-FastTrack charges. The report is found on the Report/Population tab.

**Added:** Report Name: Gang Members Having Selected Charges – A listing of all inmates that were admitted during the date range, classified as a Gang member, and having any of the selected charges. The report is found on the Report/Population tab. To mark a charge as one to be selected for this report you must go to Administration/Update Lookup Codes/Lookup Code Configuration and then select Charge Codes. Once there, enlarge the window to full size and fill in the Report Category (with either "Gang" or "Gang/DNA") for all of the charges that you wish to report on for this report. The report is found on the Report/Population tab.

**Added:** Report Name: Immigration and Customs Enforcement Inmate Listing (Date Range) – A listing of all inmates admitted during the date range with data for Immigration and Customs Enforcement. The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Activity Report - Type 2 – Lists all activity showing cell assignments and temporary movements for an inmate (includes moved to and moved from reasons). The report is found on the Report/Inmate tab.

**Added:** Report Name: DNA Samples Taken (Confined or Released)– A listing of all DNA Samples taken within the date range for all inmates (currently confined or released). The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Watch Log – This report shows all watches and logs for the selected Inmate and Booking ID. The report is found on the Report/Inmate tab.

**Added:** Report Name: Gang All Members List – (#440).This is a listing of all inmates currently in jail and released who have been added to the Gangs tab on the Booking Form. Go to Booking Form/Gangs/Gang Affiliation to select the gang that the inmate belongs too. To add Gangs to drop down go to Booking Form/Gangs/Maintenance. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: User Defined Questionnaire Count – (#441).This is a total of all the user defined questionnaires by type with in a data range. (Note: Deleted questionnaires will be excluded). The report is found on the Report/Population tab.

**Added:** Report Name: Jail Inmate Charge Roster – Type 13 (Days Held for each Arrest) – (#442). This is a list of current inmates and their charges - Type 13 (Held For Locality showing Days Held for each Arrest). The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: User Defined Questionnaire Count by Inmate – (#443). This report gives the totals of all the User Defined Questionnaires by type, giving totals for each type of questionnaire and totals for each inmate. (Note: Deleted questionnaires will be excluded). The report is found on the Report/Population tab.

**Added:** Report Name: Seized Property Inventory Report – (#444). This report gives the Seized Property items grouped by Stored Location so that an inventory can be made of each location. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Seized Property By Name – (#445). This is a list of all property seized from inmates in inmate name sequence and breaks page on inmate name. The report is found on the Report/Population tab.

**Added:** Report Name: Inmate Seized Property By Name – Type 2 – (#446). This is a list of all property seized from inmates in inmate name sequence and does NOT break page on inmate name. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Inmate Charges By Date Report - Type 2 – (#447). This report shows all charges for inmates confined during the selected date range - In Time Served then Name sequence. The report is found on the Report/State tab.

**Added:** Report Name: Inmate User Defined Questionnaire Count – (#448). This report gives the totals of all the User Defined Questionnaires by Inmate by type, giving totals for each type of questionnaire for each inmate. (Note: Deleted questionnaires will be excluded). The report is found on the Report/Population tab

**Added:** Report Name: Victim Notification Report – (#449). This report gives a detailed list of all the victims for an inmate. It lists the contact information and the attempts to contact the victim from the Victim Notification Tool- Notifications Tab. The report is found on the Report/Inmate tab.

**Added:** Report Name: Victim Notification Pending Completion Report – (#450). This report gives a list of all the victims for an inmate who do not have a completed Victim Disposition in the Victim Notification Tool- Notifications Tool. The report is found on the Report/Inmate tab.

**Added:** Report Name: Active Weekender Confinements – (#451). This report produces a list of all Inmates who have a sentence marked as serving time as a weekender and the Sentenced Time Completed has not been set on the release. It shows all confinements for each returning/weekender inmate. The report is found on the Report/Population tab.

**Added:** Report Name:  Admitted During Period (#453) - A listing of all inmates that were admitted during the selected period. Shows name, address, Held for locality, arresting agency and charge information. It breaks page on Held For Locality and prints in Admit date/Name sequence with in the Held For Locality. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Transport Mileage by Officer Including Inmates (# 452) – Report Similar to report # 428 Transport Mileage by Officer, except each transport number includes the inmates transported. Please note the multiple officers on a transport will be counted multiple times and cause inmates to be counted in the inmate count multiple times. The report is found on the Report/Miscellaneous tab.

**Added:** Report Name: Currently Confined Roster By Pod – (#455). This is a listing of all currently confined inmates with their photos showing all charges. It breaks page on Pod. The report is found on the Report/Population tab.

**Changed:** Report Name: Jail Property Inventory and Receipt (both Seized property #109 and Issued property #355) – Added a Date field on the first "Verified By" line. The reports are found on the Booking/Property Tab.

**Changed:** Report Name: Inmate Cash Account History Report – Added a "No Data Selected" message to the report when there was no cash records for the Inmate within the date range selected. The report is found on the Report/Inmate tab.

**Changed:** Report Name: Selected Inmate List by Held for Locality (#220) – Added a "Grand Total Inmates" count to the report and fixed the "Held for Locality:" label so it did not wrap to a second line. The report is found on the Report/Miscellaneous tab.

**Fixed:** Report Name: Additional Court Information (#134) – This report will now show all charges for an Inmate/Booking, not just those with additional court information. The report is found on the Report/Inmate tab.
