A Multi-Family Group is where a child comes accompanied by at least one parent or caregiver. During the group there will be group discussion, family activities, skits and art activities to help children develop better social skills. Parents are considered key to helping their child develop these skills as they are the experts on their child and are often the child’s social skills coach. The group experience provides support for parents and children. Topics covered include: self-esteem, anger management, conversation skills, tolerance, handling difficult situations such as teasing, non-verbal language, and self-awareness. The Jewish Family Service has led multi-family groups on conduct issues, and social skills and are excited to offer it again for the Passaic/Clifton Community. Call Anne Marie Ramos at 973-777-7638 ex. 143 if you have any further questions about this program.
