

Typical or Troubled?

Tuesday, April 14, 2015

3:30-5:30 p.m.

**South Shore VNA
30 Reservoir Park Drive, Rockland**

featuring

Barbara J. Green, PhD

*Medical Director
Youth Health Connection*

Barbara will discuss:

- ◆ The range of the mood continuum and when to be concerned about a teenager's behavior.
- ◆ At least three signs that teens experiencing a mental health concern may demonstrate in school and at home.
- ◆ List the basic differences between: Clinical Depression, Bipolar Disorder, Anxiety Disorder, ADHD, Eating Disorders, Conduct Disorders and Oppositional Defiant Disorder.

Who should attend? School: Nurses, Counselors, Teachers, Administration, Coaches, Community Youth Workers and Parents/Guardians who want to learn more about the teen mood continuum.

Certificates of Attendance will be awarded at this event
