SAFETY ATTITUDE and IIPP COMPLIANCE

When it comes to safety, it is easy to become complacent. Safety meetings become routine and often low priority in the production push. To keep safety a top priority, we must address the "what's in it for me" for every team member. This interactive session does just that and addresses key *Injury Illness Prevention Program* compliance requirements in the process.

[Note: Attendance at our previous SBT1 workshop is NOT required in order to attend this workshop.]
