

## Wanted: Your Australian products and services

With a population nearly 56 times the size of Australia, buyers in China are seeking your products and services

- Are you making the most of this opportunity?
- Want to know more about exporting to China?
- Want authentic Chinese buyers for your products or services?
- Exported before and found it all too hard?
- Want to showcase your products and find your future buyers without the risk?

Exporting to China is now a reality for your business.

Join us to learn about the our new and exciting initiative – **Export Growth China**

### About Export Growth China

Developed by the Australian Chamber movement specifically for SME's, **Export Growth China** is a new low risk, low cost program designed to take the complexity out of exporting to China.

### What you'll gain

Meet our team focused on actively securing interest from a Chinese buyer for your products and services – and moving you towards a lucrative sales contract.

Learn how **Export Growth China** can make your export journey a reality, reduce risk, accelerate speed to market and gain significant cost-efficiencies in the export journey
