Subject: Closure of Fallbrook Golf Course
Date: June 26, 2016 at 2:05:28 PM PDT
To: ahageman@firstnationaldenver.com

Dear Andrea,

I am writing to you as one of the members on the steering committee for SaveFallbrookGolfCourse.com and a 32-year resident of Fallbrook.

Since the complete closure and abandonment of the course on June 24, the community is more concerned than ever about what happens next. Those who live around the course see cars in the parking lot late at night and evidence of drinking (pictures to follow separately). Even more worrisome, the bar is closed up but still visibly stocked with alcohol which invites break ins and potential liability associated with this attractive nuisance.

The weeds are now high and dry; as you know, we have already alerted local fire agency about dangerous fuel load as we enter the height of our fire season.

The neighborhood and greater community are looking to First National Denver to take action. We urge the bank to put a management company in place until a new owner takes possession.

Thank you for your efforts thus far; please contact me if I can provide any assistance or additional information.
