

## Refresh (F5) Your Lean Mindset!

*Join Us for an Informative Workshop on*

### *Lean Thinking & Problem Solving!*

**\*\*\* No Fee to Attend \*\*\***

Limit two Participants per Company -  
Seating Limited to First 20 Registrants

#### **WHO SHOULD ATTEND?**

- Senior Managers / Employees needing a refresher
- Manufacturing personnel charged with project management, process improvement, and Lean initiatives
- Those interested in getting started with Lean

#### **LEAN FOCUS:**

Lean focuses on identifying and eliminating non-value-added activities from a company's processes while streamlining its value-added activities. It is a **people-oriented approach** that empowers a team to take action to achieve improvements. Lean tools and implementation are the best way to effectively use a company's most valuable resource... its people!

#### **THE RESULTS ARE EYE OPENING! LEAN CONVERTED FIRMS TEND TO:**

- Achieve higher schedule performance
- Have higher inventory turns, reduce WIP and Finished Goods
- Closer supplier partnerships
- Improved participation and morale
- Have lower defect rates
- Shorter order to customer cycles & lead times
- Greater gross margins

#### **READ ABOUT WHAT OTHERS SAY ABOUT THE WORKSHOP:**

"I attended the Lean Workshop so that I could learn a little more about the concepts of lean, and be able to have more educated conversations with my manufacturing clients. I did not foresee your presentation helping me become more productive on a daily basis. Simply implementing the elements of 5S has had a tremendous positive effect on my daily routines! **John Crowley** / Vice President / Commercial Insurance / Cook Maran & Associates
