

Join us at Reelabilities

Dear Friends,

Thanks to your support, we've provided hands-on employment training in Malden for 44 years. In the 1970s when people were transitioning out of institutions and into local communities, establishing a career in the Triangle workshop was a new and groundbreaking possibility.

In 2015, youth and adults with disabilities have many more opportunities and they demand and deserve more out of their careers. Thanks to your support, Triangle is delivering. **As the state leader in career development for people with disabilities, this year we will help more than 150 people make their career dreams a reality.**

We are thrilled to partner with ReelAbilities Boston to host a screening of A Whole Lott More at Malden High School on Thursday, February 26th. A Whole Lott More is an award-winning documentary ([watch the trailer here](#)) about three people with disabilities who are searching for employment and the disability services organization, LOTT industries that is trying to help them achieve their goals.
