

Neighborhood Traffic Calming Policy

The growth and development of the City of Oakley as a vibrant and active community makes it a favorite destination for families to make it their home. The desire of residents for neighborhood traffic calming has also increased, which is a natural progression of a young and growing community.

The City of Oakley has been pro-actively working on addressing a wide range of neighborhood traffic calming requests. The City Council adopted the updated Neighborhood Traffic Management Policy on November 18, 2014. This policy provides a clear and transparent process that will be used by City staff to work collaboratively with residents to address traffic related issues and inquiries. Public Works and Police Department staff are currently working on 11 traffic calming requests. As result of this effort, a series of new Traffic Calming signs (as shown below) will be installed in selected residential streets, in addition to enhanced police speed enforcement. City staff will continue to be engaged in the collaborative work with residents in addressing neighborhood traffic calming issues and will deploy a variety of measures to achieve the successful results in enhancing the quality of life for the residents of the community.
