

TAX BURDEN PER PERSON (PER CAPITA)

Pawling Taxes Are The **HIGHEST**

Pawling = \$4,559 Per Person Annually

The figures represent taxes or levy paid per capita in each municipality and are based upon data from the Patterson Tax Collector and the Dutchess County Real Property Tax Services. Population estimates for 2015 from the Census Bureau and assumes that census tracts follow the same boundaries as are used for establishing towns. Where relevant, villages are included in towns. The levy is for Fiscal '15 and includes County, Town (and Village), School District, Fire and Library. It does not include Special Assessment Districts since they are not always community wide.
