Discover the grasslands of Southern Alberta, a rare habitat that has often been overlooked and misunderstood. Upon close inspection students will discover that the grassland is an amazing example of biodiversity and a spectacular venue for looking into our community, our roots and our connection with nature. Students will discover the importance of healthy biodiversity, discuss species at risk, and meet folks working to protect what little grassland we have left!

***Available at no cost to teachers, sponsored by the Alberta Prairie Conservation Forum. Groups must pre-register.***
