* Denotes public participation is highly encouraged.

Ayukii from the Food Security Project! We would like to encourage as much volunteer participation as possible in our activities this month.

Herbarium Collection/Mounting* - Participate to learn *with us* the Ethnobotany of the Karuk People. Depending on weather, workplan may vary from mounting specimens indoors to collecting specimens in the field. Nature walks included. Contact Megan Mucioki, mmucioki@berkeley.edu.

Happy Camp Gardens* – watering and maintenance of Community and TANF gardens and People’s Center native plant garden with. Contact Ben Saxon, bsaxon@karuk.us.

Orleans Community Garden* – watering and maintenance of Orleans Community Garden with MKWC and Summer Youth Crew. Contact Heather Rickard, hrickard@karuk.us.

Trad. Plant Harvest-Processing/Management* – for the month of June, we will be focusing on traditional food and medicinal plant harvest and processing. We plan to process more medicine plants and food for the upcoming tribal reunion. We will resume Traditional Food Groves Surveys to document these resources for future land management activities. Contact Ron Reed, rreed@karuk.us.

SOD Stream Monitoring* - with the help of UC Extension, we will continue setting bait leaves in local creeks to monitor for presence of Sudden Oak Death. Contact Heather Rickard, hrickard@karuk.us.

Volunteers should be aware of weather conditions (dress appropriately) and they need to provide their own lunch, while transportation can be provided on a limited basis.
