

From the KTHFS Food Security Program

Sovereignty—Security—Sustainability: Building Local Food Systems for Community Health and Self-Reliance

A series of weekend workshops at the future
Chiloquin Community Garden: 202 Pioneer St, Chiloquin

1) Permaculture and Organic Gardening Fundamentals - Designing Your Garden

April 11th & 12th; 9-5, potluck lunch

2) Dryland Strategies for Resilient Food Systems

April 25th & 26th; 9-5, potluck lunch

3) Tending the Summer Garden & Planning for Fall

June 6th & 7th , 9-5, potluck lunch

Participants will learn permaculture and organic gardening fundamentals through the development of a design plan for the Chiloquin Community Garden. These are introductory courses to permaculture design with an emphasis in sustainable, high desert, gardening practices. Students who are interested in earning certification in permaculture design, may apply these class hours toward the 72 hours required to receive Permaculture Design Certification (PDC).
