Spring Summit - Collaborations & Solutions

a follow up to the Indiana County Poverty Summit

In September 2014, Representative Dave Reed partnered with the Agency Relations Committee of the United Way of Indiana County to host the Indiana County Poverty Summit. Over 50 organizations participated in the event, which consisted of brief speakers, followed by roundtable discussions, all with the goal of identifying specific barriers to overcoming poverty. Common themes were recognized and have provided a foundation for this follow up event. We will be focusing on transportation, as well as agency collaborations and increased efficiency. Join us in our ongoing efforts as we seek to develop realistic solutions to better serve those facing the issue of poverty.

If you or your organization assist those struggling with poverty in our area and are interested in attending, contact Representative Reed's Indiana office for more information or to RSVP by calling (724) 465-0220 or emailing asmocek@pahousegop.com. Reservations are required by March 13th.
