

Goodwill's Summer Bridge Mentoring Program

Preparing students for college success!

The Summer Bridge Mentoring Program is for first-generation college students and any other students looking for support transitioning to college. In this program students can expect to:

- Gain a mentor who has successfully completed college and wants to support you over the summer and through your first year. Your mentor will work with you on: time management, study skills, social skills, financial aid, budgeting, etc.
- Get to know a community of students going to your college and to other colleges in the area.
- Participate in fun outings with your group to places like Red Rocks Film on the Rocks, Rockies games, rock climbing etc.
- Goodwill provides dinners at each meeting!

Students who have gone through the program before have had enriching relationships with their mentors and the Goodwill post-secondary success staff, and have been very successful in college.

Student commitment

One evening per week from 6-8pm for 8 sessions in June and July

Meet at a Denver area college campus

On-campus support through first year

Application details

March 20, 2015 application deadline
