Hello Volleyball Enthusiasts,

If you only knew how long it takes to learn certain strategies that will lead to more victories in the game of beach volleyball, you would absolutely freak out. It took me about 20 or more years of winning and losing against the best World Class Players to learn their secrets, or develop my own.... but you'll be happy to know, I have them all right here compiled into a reasonably short electronic book.

One thing great volleyball people stand by is this fact: If you are good at Beach Volleyball, you can be great indoor, but if you are great at indoor volleyball, you are not going to necessarily be good at beach volleyball. That is where this book comes in. Think about how much money one throws at Club Volleyball to hope their kid gets a scholarship. It is tons and adds up considerably through the years. This book helps solve a problem and nurtures that investment to increase the chances ten fold.

My name is Doug Masuro and I am a former AVP Player and the author of Beach Volleyball - Secret of The Pros. I want to introduce you to an exceptional e-book in an Adobe .pdf file format that is easily opened with Adobe Acrobat. You can probably read it in a few hours, but you should keep the book for a lifetime. Whether you are playing at the company picnic or are thinking about becoming a professional beach volleyball player, I recommend this book as a "Bible" for the sport of Beach Volleyball. The book does not beat around the bush, it gives you a fun and entertaining time, and covers all volleyball strategies and
