

Ok listen, I'm not going to waste your time with fancy sales copy. Here's the deal, outsourcing ebook covers will cost you at least \$15 to \$20 for a very simple worthless cover. A reasonable ebook cover design will cost anywhere between \$30 to \$65 per design, and here's the kicker...

Guess what most of these template guys do?

They actually take templates like the ones on this page and all they do is change the title, the tag line, the image and that's it - they're done!

Do you see where I'm going with this?

If you thought...

"Hang on I can do this myself if I had a set of ebook cover templates!"

Then you are in the right place!
