**"Discover how to maximize your fat burning while you achieve the body you deserve."**

**Lose stubborn fat permanently & gain happiness without wasting lots of your valuable time!**

**Dear Optimal Weight Seeker,**

Have you tried everything but can't seem to lose that 5-20 pounds of extra body weight?

Are you totally confused by all the diet plans, pills, instant weight loss plans and seemingly **magical programs** that are supposed to take effect overnight? It seems like every week there is a new book telling you how to eat that is far superior to the "old" way to eat. How confusing!

You try to eat healthy, you definitely exercise, but it seems that without doing some kind of **crazy starvation diet**, there is no way to get to your perfect weight. Is will power the problem? Talking to people about it and not achieving your goals is getting embarrassing!

You've discovered what DOESN'T work:

✓ Starving yourself
