A2Z ONLINE CAMPUS

A2Z Smart Music Online Web Academy is an easy, fun and affordable way to learn how to sing from scratch or to improve your current singing voice skills. Really learning and understanding the artful craft of singing takes years. Unfortunately if you are only provided the information you get in voice lessons, it will take you a long time to reach your true singing potential. Let's face it, your voice teacher has a lot to do for you. After taking the time to make sure you are properly warmed up along with song performance time needed to train you on material ... how much time do you really get to discuss technique? Usually, not much. Inside our hallways you will find detailed singing lessons on how to accomplish simple but important tasks as they relate to the singing voice. Just like any sport requires practice and coordination of skills, so does the sport of singing.

Whether you are one of the lucky ones who regularly trains with a teacher, or someone who is studying independently at home, your singing skills will progress quickly using our systems. One easy step at a time you will learn specific skills and build upon a logical foundation of specific actions...the secrets of singing, if you will.
