Christian Blake's books about the Seven Moments have been selling internationally since 2006. Writers from all over the world have been using the Seven Moments to enhance their novels, short stories, and screenplays. Understanding how to use the moments is integral to a writer's ability to captivate an audience.

"There is a secret method to captivating an audience that you don't know about. Screenwriting courses aren't discussing it, and you won't find it in books. Nor will they teach you this method in film school. You can only learn this information right here, on this page. Keep reading; your screenwriting career depends on it. This information has never been discussed before."
