

## Dear Fellow Collectors

**It's finally here...**Introducing a remarkable digital numismatic reference for Conder Token collectors that has twice the utility of a hardcopy of D&H and is available at a fraction of the cost. We have successfully taken the "Bible" of 18th Century British Tokens, Dalton and Hamer's [Provincial Token-Coinage of the 18th Century](#), ripped it apart and meticulously pieced it back together into a restructured, fully integrated digital book . . . adding oodles of info and a multitude of navigational features along the way to create the infinitely more user-friendly Conder token reference, [The Ultimate Guide To Conder Tokens: The Provincial Token-Coinage of the 18th Century Digital Quick Reference](#).

**What's in it for the Novice? *Everything!*** It's more than an extremely **cost-effective** alternative to buying a hard copy of D&H. It provides all of the **essential content** of D&H and the need-to-know facts about the original reference. Incorporates a discussion on rarity, token composition analysis, collecting tips, value study, and an excellent article on the history of the series courtesy of Professor George Selgin.

**What's in it for the Connoisseur? *A lot!*** Everything has been **completely integrated and reformatted**. **Unique search-ability** and **tons of intra-document links** make sifting through the hundreds of pages in D&H nearly effortless... and includes a **price analysis** to boot! Details below. [Read on](#)
