**Shelbyville, KY – February 17, 2015** - As part of their ongoing support of the American Farrier's Association, FPD has donated audio-visual equipment to be used for live demos and presentations at their many educational programs and events. The gift of two Mitsubishi projectors and two Fender wireless PA systems, provided by FPD, will be used in Overland Park, Kansas for the AFA's 44th Annual Convention to be held February 24-27, 2015.

"We have always supported the AFA's role in providing educational opportunities that allow farriers to improve their work, while making the industry stronger," said Dan Burke, President of FPD. "Throughout the history of the association, they have facilitated significant progress for farriers in North America and beyond. As a part of our commitment to farrier education, we are happy to have an opportunity to help them with the effort."

**About Farrier Product Distribution, Inc.**

Farrier Product Distribution (FPD) was founded in 1990 and is a wholesale distributor of farrier and related equine products and the North American Importer of Kerckhaert Horseshoes and Liberty Nails. Considered a leader in bringing groundbreaking products and service to the Farrier industry, the company distributes to suppliers throughout North America. More information about FPD can be found at [www.farrierproducts.com](http://www.farrierproducts.com). and [www.farrierproducts.com/blog](http://www.farrierproducts.com/blog).
