

Dear Editor:

[Pick a bullet point or fact from one of the two CPAC workforce flyers that fits with your personal story. How has the issue impacted you, your colleagues, your family, or someone you know? Or why is this issue important to you? (Remember to be concise. Most publications want letter 250 to 300 words, some request under 200.)]

Example:

Did you know that despite working full time, almost half of Early Childhood Educators need to rely on food stamps and subsidized housing to survive? This is second only to fast food workers. Is that how we should treat the people that care for and educate San Francisco's children?

[In a sentence or two—or a short paragraph, tell about how this impacts your site, children you care for, you, and/or your colleagues if it does. If you don't have a story for this bulleted fact, pick another. Then sign your name. Thanks for taking the time to write a letter!]

Sincerely,

[YOUR NAME]

[YOUR City, State]
