Alternatives Public Workshop, March 19, 2015

The Maryland State Highway Administration (SHA) and the Federal Highway Administration invite interested persons to attend an Alternatives Public Workshop for the MD 28/ MD 198 Corridor Improvement Study from MD 97 to I-95 in Montgomery and Prince George's counties.

The purpose of the study is to improve local traffic safety and operations for motorists, bicyclists, and pedestrians traveling along the MD 28/MD 198 corridor and across intersecting roads while maintaining access; and to preserve the rural and suburban quality of life by addressing traffic issues while considering local planning visions and state growth policies for communities along the corridor.

The Alternatives Public Workshop will present maps and other exhibits of the preliminary alternatives under consideration, traffic data, and potential environmental impacts. The meeting will provide an opportunity for study team members to hear your project-related comments, explain the project planning process, present the Purpose and Need Statement, and share the preliminary findings of the study. You may arrive at any time during Workshop hours and walk through at your own pace. **There will be no formal presentation.**

For additional information, visit www.roads.maryland.gov and click on **Projects and Studies, SHA Projects Page, Montgomery County, Pre-Construction and MD 28 (Norbeck Road)/MD 198 (Spencerville Road)** or use the QR code on the reverse side.

Request for Assistance

The MD Relay Service can assist teletype users at 7-1-1. Persons requiring assistance to participate, such as an interpreter for hearing/speech disabilities or assistance with the English language, should contact Ms. Danielle Black by March 12.
