The Council—

WHO WE ARE

The Council for Quality Growth, founded in 1985, is a trade association advocating for the growth and development industry with the mission of promoting balanced and responsible growth in metro Atlanta and Georgia.

WHAT WE DO

The Council brings the development community and policy makers together as we focus on long-range community planning, encouraging adequate government services, catalyzing consensus on growth issues and advocating for a sensible and efficient regulatory environment.

HOW WE DO IT

The Council delivers this mission through the platforms of Advocacy, Education and Information. We work with hundreds of elected officials, administrators and staff across metro Atlanta's more than 80 local governments plus state agencies and legislative and executive leadership. We collaborate to ensure that planning, zoning and other local, regional and state regulatory policies promote thriving communities, strong infrastructure and a prospering economy. We actively advocate and lobby in city council, county commission, regional commission and state legislative and regulatory forums. Members, in turn, receive exclusive access to the most comprehensive information about regulatory and policy issues in the region. We educate local and state elected officials and professional staff who regularly seek our policy advice and input.

All members of the Council for Quality Growth receive representation and advocacy by the only organization that works exclusively for the growth and development industry.
