Senate Committee on Ways and Means
Senator Jill Tokuda, Chair
Senator Ronald Kouchi, Vice Chair

March , 2015

Dear Chair Tokuda, Vice Chair Kouchi, and Committee Members:

This testimony is in opposition to SB258 SD1, requiring the department of education in consultation with the Hawaii state energy office of the department of business, economic development, and tourism and the Hawaii natural energy institute of the University of Hawaii, to conduct a comprehensive study and develop a master strategy for the cooling of all public schools.

The Hui for Excellence in Education (HE'E) is a diverse coalition of over 40 parent and community organizations dedicated to improving student achievement by increasing family and community engagement and partnerships in our schools. Our member list is attached.

Our members agree that students learn best in environments that are comfortable. We have heard that at some schools, the heat is so distracting that students and teachers are not able to concentrate. We have also heard from DOE personnel that air-conditioning a school is a complex and expensive task, particularly because our school facilities are aging and were not originally designed to have air-conditioning. Therefore, we support the coordinated effort of DOE, DBEDT and the University of Hawaii working collaboratively to identify the costs and recommend a financial plan for implementation.

Thank you for the opportunity to testify. Our support of this bill represents a 75% consensus or more of our membership.

Sincerely,

Cheri Nakamura
HE'E Coalition Director
