

Beginning the summer of 2015, Scouts and Scouters will be able to surf the information highway on a much improved internet access point. Hawk Mountain Scout Reservation will now have fast and reliable COMCAST high-speed internet for customer use.

COMCAST Internet delivers the fastest, most reliable WiFi for all devices, all the time. You will get the consistently fast speeds you need, even during peak hours.

The Staff at Hawk Mountain Scout Reservation is pleased to be able to provide this service free of charge.
