Briefly describe your business and/or what you do: I love sharing Tealightful's loose leaf tea tastes and general tea information with people! As a home party company, I do grown-up tea parties to introduce people to properly steeping and sharing loose leaf tea, but I also offer tea tastings and education at many other kinds of events. We offer over 100 flavors of teas, as well as tea accessories, and scone, dip and dessert mixes, so have something for everyone.

What I most enjoy is the look on people's faces when they taste our teas and realize how good they are, and that they actually DO like tea! It is most rewarding to get people who might not have been tea drinkers previously, started on the tea journey!

Extra special stuff you would like to share: I never intended to sell these teas, but joined mainly to buy my own teas at a discount! Well, you can see what happened when I shared with a few people and people started looking for us! My team of 25+ is nationwide and we are all having fun sharing tea, but are always looking for more to join us on this amazing journey!

List any specials interests: Scrabble, word games, scrapbooking, travel, time with friends and family, Leukemia & Lymphoma Society Light the Night Walk

Briefly describe how WBC could support you in growing your business: I appreciate all support, especially referrals or ideas of places and events where I can offer tea tastings and education.

Briefly describe why you are a member of the WBC: Networking with local businesswomen allows us the chance to meet and form relationships and discuss issues more specific to women in business than other networking venues. This group of women truly does support and care about each other.

Any additional information you would like to share: I have been a Franklin resident for 28 years, and as a Missouri native, am really not a fan of winter.

My daughters, 25 and almost 21, are away at school in MO and NY, so after years of kids coming and going, my husband and I enjoy being “empty nesters” but we also enjoy having our girls home on breaks.

After the hardest battle of my life in 2011, fighting lymphoma, I am glad to finally be feeling better and on the road to better health as remission continues. Another reason why I drink so much tea
