

Robert Sandberg, PMP

6926 SE Morrison St., Portland, OR 97215 - (971) 203-4414 - rsandberg36@gmail.com

Project Management Professional (PMP) with over twelve years experience managing solar projects, construction, corporate training and IT. Looking to advance my career in solar project management. NABCEP certified with experience in solar design, installation, commissioning and sales.

Experience

Alternative Power Development, Northwest – Corporate Communications Director

- Designed and implemented a public education and outreach campaign for Grand View 80MW project, Idaho's first utility-scale solar installation
- Gathered over 140 letters of support from stakeholders including: Local and state politicians; attorneys and landowners; environmental groups and general public
- Resulted in approval of this \$180,000,000 project by the Idaho Public Utilities Commission

SolarCascade – Chief Operating Officer

- Designed and managed solar PV installations
- Planned and implemented sales and marketing campaigns
- Commissioned systems
- Performed site surveys

Wells Fargo Bank – Vice President

- Managed \$16,000,000 IT projects throughout 12 states
- Trained finance professionals in customer service and proprietary software
- Trained project managers in project management science and software

Catapult Software Training – Software Trainer

- Conducted corporate trainings in Microsoft Project and Microsoft Office Suite

Alderson Construction – Project Manager

- Managed high-end residential and commercial remodeling projects
- Directed contractors and managed vendors
