BCPS One: Filter classes by teacher of record

Currently, the use of Display Names, or "nicknaming'" is for teacher use only. The original course name will remain for students, parents, and administrators. This provides consistency between BCPS One and the students' records (report cards, transcripts, etc.). Teachers who you share your classes with will be able to see the Display Name. Administrators and STAT teachers should work with staff to ensure that naming conventions are consistent throughout the building.

# Naming Conventions:

The order in which identifiers are included in the display name will impact how classes order themselves within BCPS One. For example, if teachers would like their classes organized by A/B schedules, the first identifier should be A or B. See the examples below.

## Elementary

# Display Names should be as follows:

Subject, Optional School-Based Identifier [block, time, section etc.] (Note: Special Area Teachers may use homeroom teacher names as the identifier. General Classroom Teachers should not include their names as an identifier as these already populate in a separate field.)

### **Examples:**

- Science
- Math 4, Block 1
- Social Studies, 11a.m.
- ELA, Section 3
- Special Area Teachers: Library, Jones

#### Secondary

### Display Names should include the following information:

Subject, Period, A/B

## **Examples:**

- English 10 2A, English 10 2B (Organizes classes by subject)
- 2A English 10, 2B English 10 (Organizes classes by period)
- A2 English 10, B2 English 10 (Organizes classes by A/B day)

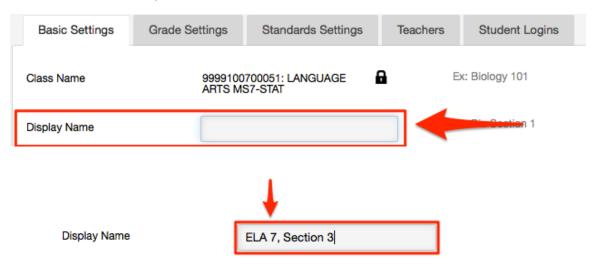

The format of display names should be consistent throughout the building.

# Changing the Class Display Name

1. Hover over the gear icon next to the course you would like to rename and select "Edit Class Settings".
