
MEET OUR NEW DIRECTOR OF DEVELOPMENT

Ben Chadwell brings his background in nonprofits and youth work to his new position at The Silver Academy. Immediately after graduating from West Chester University Honors College in 2013, where he studied International Business, Spanish, and Biology, and led services for the Hillel, Ben returned to his native Harrisburg to fulfill an AmeriCorps internship through The Joshua Group. Soon thereafter he was hired to work in our school's Development Office, managing the 2013-2014 Annual Campaign, coordinating our Pre-Passover Online Auction fundraiser, building social media presence, and generally assisting as we strive to grow and strengthen our Silver Academy family. He looks forward to connecting further with community leaders (and cultivating new ones!) to sustain the policy of Rabbi David L. Silver z'l that no Jewish child who desires a Silver Academy education will be denied because of financial hardship.
