

Answer...

Amy Guilmette, the friendly face at the Silver Academy front desk, was the sales assistant at a plastic fabrication plant in Pittsburgh before moving to our area. She is in her sixth year working at the Silver Academy as our Administrative Assistant. Amy and her husband Jeff live in Middletown with their bunny Daisy.

Gretchen Lofblad, our Business Manager has a heart for animals. Not only has she been involved in cat rescue for many years, but she recently adopted a Goldendoodle puppy. Also, special congratulations to Gretchen as she will be getting married in the spring!

Myrna Rubin is probably not a stranger to you, but did you know that she worked as an X-ray technician at the Children's Hospital of Philadelphia? Myrna has worked at the Silver Academy for 14 years, subbing and volunteering, and is currently our part-time Administrative Assistant. Myrna's three children attended our school, as did her husband and his siblings. She hopes to still be working here when her grandchildren enroll!

Thanks to Amy, Myrna and Gretchen for helping our school run smoothly!
