## Hazel Schmoll Research Fellowship in Colorado Botany 2015

Dr. Hazel Schmoll was an alumna of CU-Boulder and was the first woman to receive a Ph.D. in Botany from the University of Chicago in 1935. She conducted her doctoral research on the "Vegetation of the Chimney Rock area, Pagosa-Piedra region, San Juan Mountains, southwestern Colorado". Later, Dr. Schmoll collected plants in the northern Front Range, and shared her love and knowledge of Colorado plants by leading nature trips in the vicinity of Ward. The Hazel Schmoll Research Fellowship has been established to continue her work of research and education in Colorado botany.

Proposals must emphasize field botany, including systematics and ecology, of Colorado plants and lichens. Funds could be used for field supplies, travel expenses for conducting research, and/or travel expenses to attend professional meetings to present the results of research.

**Eligibility:** All students, faculty, and staff of the University of Colorado at Boulder. Preference will be given to students.

**Award:** up to \$1000

**Grant Period:** 1 year

**To Apply:** Submit a Project Description no longer than two pages in the following format: single-spaced, 12 point Times font, 1-inch margins. The Project Description should detail (1) the general nature of the project, (2) importance of the project to the field (cite studies in the field relevant to the project), (3) methods/procedures to be followed, and (4) expected achievements by the end of the grant period. A separate Literature Cited section should be included (no length limit). Also provide a one-page budget describing exactly how the funds will be used. Please also include your CV or resume.

**Submit:** PDF or Word file to [herbcolo@colorado.edu](mailto:herbcolo@colorado.edu) with Hazel Schmoll Fellowship in the email subject line.

**Deadline:** Application materials must be received via email by  
**Friday, 17 April 2015 – 3:00 p.m.**

All published papers, theses, reports, and presentations at professional meetings resulting from the funded research should include the following statement in the acknowledgments: "This study was supported by a Hazel Schmoll Research Fellowship in Colorado Botany from the University of Colorado Herbarium."
