What is CSA?

CSA, or Community Supported Agriculture, is a partnership of mutual commitment between a farm and a community of supporters. Members join the farm and pick up a share of fresh, in-season produce grown on the farm each week, forming a connection to the farm and farmers who grow it. Member support is vital to the farm and contributes toward a vibrant and healthy local food system.

Our mission at Common Thread Farm is to produce healthy food for our local community using sustainable growing methods, provide opportunities for people to connect with land and community, and contribute toward a just and sustainable food system.
