Re: HIV/AIDS Awareness

The Office of National AIDS Policy states that in the United States half of all new HIV infections occur in people under 25 and one-fourth under 21 years of age. Over the past 10 years, the Rotary Clubs of Georgia in collaboration with AID Atlanta offer abstinence based HIV/AIDS Awareness Education to school districts throughout the state because of the current statistics regarding HIV/AIDS in Georgia. Your child's school has elected to have an AIDS Awareness Presentation on January 23rd at 12:35.

Parents must give permission for his/her child to attend this assembly style presentation. Students who do not have signed permission slip will not attend this presentation. Parents must complete this attached permission slip and return it to his/her child's teacher as soon as possible.

We look forward to educating your child about the HIV/AIDS epidemic in Georgia.

Sincerely,

Cicely Richard

Cicely Richard, MSW

AID Atlanta's ASK US Youth Outreach Program Coordinator

Your child's HIV/AIDS Awareness Program is through an AID Atlanta /Rotary District 6900 collaboration and will be presented to your child on January 17th. Your child must have your permission to attend this assembly. Please complete this form and return to your child's teacher before January 17, 2014.
