

I would like to take this opportunity to introduce myself to you. My name is Justin Allen and I am running for Mayor of Wellsville. My wife, Pamela and I have lived in Wellsville for the last 15 years. We have two children, Tucker and Madelyn. I have worked for the City of Lawrence for the past four and half years, and I am currently a Senior Maintenance Worker with the Public Works Department.

Although I have no political experience, I do have life experience. I have seventeen years in the auto repair industry; my ongoing goal has been providing customers with an honest and transparent experience. In my profession, it is imperative that all customers receive the same level of service; this is what I want for the Wellsville City government. It is my belief that building a strong working relationship with the city staff, council, and the community will allow for the community to be stronger. It is my desire to have a peoples' government that welcomes and encourages participation on all issues that impact the city and the citizens. This type of government will require an open door, one that welcomes issues, ideas and embraces questions. I will provide open and honest answers with all. At the end of the day, I want to be the voice for the people that are hesitant to voice their concerns. Let me be your voice.
