

New Third District Commissioners

Since November Mayor Garcia has been busy filling numerous vacant City commission seats. I am proud to report that Third District residents filled fifteen of the vacant commission seats. These community based commissions play a vital role in bringing transparency, change, and growth to the City of Long Beach. I communicate regularly with the Third District commissioners in order to support their efforts and I rely heavily on commissioners to educate me on important subject matter. I would like to give a warm welcome to our newest commissioners and say thank you to all of our commissioners for their interest in serving our great City.
