

Veterans Services

Go Team Veterans!

Workforce Central's Veterans Employment team has worked closely with a local Veterans Shelter for many years and several area employers to provide employment readiness training and guidance for resident Veterans. This partnership recently resulted in 12 Veterans working in a subsidized employment training program and five veterans getting jobs. The Veterans Team anticipates many more successes like these as the program continues to grow. Additional information on the program can be obtained by calling [Workforce Central](https://www.workforcecentral.org) at 508-799-1600 and asking for Bill Ryan or Tom Forhan.
