

building global friendship

This October, a new type of JB event took place in Dallas, Texas. JB Pittsburgh was represented at the event, called CanExUs. The weekend long workshop was attended by JBers from Canada, Mexico, and the United States (which come together to form the word CanExUs). At this workshop, participants shared best-practices and ideas about JB, with the idea that everyone would go home and share those useful ideas with their own chapters. There were also activities and discussions about diversity in CISV and JB, and how we can become diverse in more ways than we may have already considered. Overall, it was a fun and productive weekend for all involved. Look out for a future edition of CanExUs; it is a great workshop for any JBer aged 16+ to attend!

- Charlie Wolfson, CISV Pittsburgh Junior Branch Vice President and National Junior Board of Trustees
