

## *SAVE THE DATE*

- **WHEN:** Thursday, March 17, 2016
- **WHERE:** Stamford Marriott, 243 Tresser Blvd.
- **TIME:** 11:30am - 1:30pm

### **SECURITY:**

#### **YOUR TENANTS, YOUR BUILDING, YOUR NETWORK**

Join your BOMA colleagues to hear from Doug Pesce, Department of Homeland Security (DHS) Protective Security Advisor and Lyle Liberman, Chief Operating Officer at JANUS Associates speak on security issues for your property, your tenants, and your information technology systems.

As the world continues to change, it's imperative that we keep up-to-date on security issues. What we did just five years ago is not necessarily the best course of action today. How do we stop unwanted people from entering our buildings, and how do we prepare our tenants? Our computers store sensitive company and employee information, and they may be networked to our building management/automation systems ....are they secure from hackers?

Come hear from these two security professionals on how to make it safer for our employees, our tenants, our property, and our company.

#### **PAYMENT**

*This program is included if you prepaid your programs.*
