

BIO Ms. Lynn Goodendorf, CISSP, CIPP

Director Information Security Mandarin Oriental Hotel Group

Lynn Goodendorf is the Director of Information Security with a global scope of responsibility for all hotels and corporate offices. She brings a strategic and risk-based perspective to lead information security with over 22 years of leadership in technology and risk management with experience both as a CISO and Chief Privacy Officer. Lynn's passion for data protection has earned her industry-wide recognition including:

- testimony for the U.S. Federal Trade Commission regarding best practices in information security;
- presentation of a white paper to the National People's Congress of China regarding the global flow of personal data;
- service on the U.S. technical advisory group to the ISO/IEC international standards sub-committee for security techniques that resulted in the updated ISO 27002
- service on the WHOIS Review Team as an independent expert for ICANN to support compliance with the Affirmation of Commitment with the US Department of Commerce.

Lynn has been a speaker at ISACA, Infragard, Secure World and other professional security events and has published articles with TechTarget, Hospitality Upgrade and White Collar Crime Fighter. Her professional associations include ISSA, IAPP and InfraGard, a cybersecurity partnership between the FBI and private sector.
